New York Electrical Society

The 420th meeting of the New York Electrical Society will be held at the Engineering Societies Building, (Auditorium), 38 West 39th Street, New York, N. Y., Tuesday, May 27, 1924, at 8 P. M. (Daylight Saving.)

Mr. L. W. CHUBB of the Westinghouse Electric and Manufacturing Co., Pittsburgh, Pa., will talk on

“RADIO RECEIVING AND RECEIVING APPARATUS”

This talk will be illustrated by special apparatus. Mr. Chubb plans to cover the various important schemes of receiving and to show why the different circuits are required under various conditions and to give some idea of the limits of selectivity and sensitivity, etc. It is planned to have the latest styles of receiving sets on exhibition.

Following the paper an interesting discussion is planned in which the following authorities will take part: Prof. J. H. MORECROFT of Columbia, Prof. L. A. HAZELTINE of Stevens, J. V. L. HOGAN, Consulting Engineer, N. Y., and others.

LADIES INVITED.

H. E. FARRER, Acting Secretary.

My dear Clarke:

I never ack'd your
kind letter of Jan 30, but
perhaps by this time you will
have learned of my illness
and have seen my printed
remarks in the "Journal" A.D. 88.
for March. I went down quite
suddenly around Xmas and had
to go into Hospital to have my
prostate gland removed - a
not uncommon thing for men
of my age. Kennelly has just
been through the same ordeal
in Cambridge at the same
time.

The result is that I not only missed the Institute celebration but the Edison Birthday party — missing "in fact" on all cylinders!

We are now renting our house here for two years May and going up to the farm in the Berkshire Hills about April 15. The doctors tell me I ought to count on health strength and ability to work up there. Should be able to see you this summer.

Hope you are OK.

P.S. Have not yet been in to town!

Very truly

Yours

Chas. F. Clarke Esq.
Fleming

The Knickerbocker Press
THOMAS C. MARTIN,
ENGINEER, IS DEAD

Associate of Edison, Inter-
 nationally Known, Victim
 of Pneumonia.

Sunday, May 18, 1924

Special to The Knickerbocker Press.

PITTSFIELD, May 17.—Thomas Commerford Martin, noted electrical engineer, died at the House of Mercy hospital here tonight. Mr. Martin was stricken with pneumonia at his summer home at Worthington, Mass., yesterday.

Mr. Martin was one of the Edison Pioneers, made up of men who had spent their lives in association with the inventor.

Born in London July 22, 1856, Mr. Martin in 1877 became associated with Mr. Edison and in 1879 became editor of the Electrical World, which position he held until 1909. He was advisory secretary of the National Electrical Association since 1909 and also was staff editor of the Science and Industrial Information Bureau. In 1907 he was decorated by the French government for services in public electrical instruction. From 1900 to 1915 he was census expert for the United States government.

Mr. Martin was a noted international lecturer, appearing many times before the Royal Institution of Engineers at London, the Societe Internationale Electric, France; University of Nebraska, Lehigh university and Delaware college. He also wrote many books.

He was a member of the conference committee organized by engineering Societies of the United States, which had charge of the expenditure of \$1,500,000 by Andrew Carnegie for construction of a united engineering building.

Mr. Martin was chairman of the Marconi fund for war relief and the Florence Nightingale hospital for training nurses in France.

His permanent home was at Larchmont Manor. He is survived by his second wife and two sons.
